Dear Resident,

Thank you for considering global, immigrant, refugee, and/or public health as a part of your internal medicine training curriculum. We welcome your interest in the Global Health Scholars Pathway in Internal Medicine, a three year pathway that incorporates academic career development in these areas. You are eligible to apply to other programs offered in Internal Medicine such as C-STAR, and application to MiM-I is mandatory, but note that due to ACGME requirements you may be only allowed to participate in one. **PGY1s are eligible to apply to this program.** If you are interested in global health and you are not eligible to apply, then please contact Dr. Caline Mattar to explore other ways to support your interest. Global Health Scholars Pathway applications will be accepted until Friday Nov 30th. This application requires your CV and an interview. **Interviews dates are TBD.** Please fill out the information below and submit the application and your CV to cmattar@wustl.edu. We understand that interviews may need to be rescheduled based on your rotation schedules.

Details for the Global Health Scholars Pathway in Internal Medicine can be found on the website at [http://meded.dom.wustl.edu/global-health.html](http://meded.dom.wustl.edu/global-health.html). If you have any questions about the program and the application, please contact Caline Mattar, M.D at cmattar@wustl.edu.

All answers should be a maximum of 150 words. Please mark an X next to the multiple choice answer. Please type the answers within this form.

Name: ____________________________________________

Current Fellowship Interests (You May List More Than 1): ______________________________________

Language Fluencies: ____________________________________________

1a. Have you received any prior education in global/immigrant/refugee health or public health?
   ☐ No   ☐ Yes
